VIETNAM

Host Country

Why choose Vietnam?

1. Tourism

Vietnam is an attractive destination for visitors. The country has transitioned to a market economy after decades of conflict and socialist reforms. Socially, it is evolving progressively, with historically outdated conservative values increasingly being replaced by universally accepted ideals and aspirations. Ambitions are shifting as well, with more young Vietnamese wanting to work for innovative multinational businesses. This modern mindset also transfers to their daily lifestyles where many speak English and French, travel the world, and wish to be a part of our globalised world as workers, friends and volunteers for good causes.

We want to introduce you to the New Vietnam, of natural beauty, bustling towns, rich historical traditions and cultural attractions, as it has become one of the most sought-after vacation destinations in the world now. The rising Vietnamese tourism sector has welcomed more than 15 million international visitors. WSDC 2023 is your chance to visit!

The country's natural scenery is regarded as one of the greatest in the world by foreign visitors. The breath-taking Halong Bay, the highland town of Sapa in Laocai, our 31 National Parks, multiple World Heritage sites, massive caverns and various lovely white sand beaches are places to explore and enjoy. TripAdvisor's 2014 Traveller's Choice Awards for the top 25 destinations in Asia ranked Hanoi 2nd, Hoi An 10th, and Ho Chi Minh City 18th for visitors. "Military tourism" is also bringing a large number of visitors to Hanoi's old Hoa Lo Prison or "Hanoi Hilton".

2. Politics

In recent years, the Youth Union has organized many awareness-raising and informative activities on policies and laws for young people. The Youth Union offers a forum for young people to participate in the formulation of national policies and laws. The new generation of Vietnamese recognizes and utilizes their political capital, and is willing to contribute to systematic changes to build a more modern and cosmopolitan Vietnam. They are playing a key role in the development of foreign relations with global leading nations. When US President Barack Obama visited the nation in 2016, his remarks at a gathering in Hanoi's capital city echoed this sentiment: "This is your moment," he declared, assuring the youths of Vietnam that the United States, which had battled Vietnam for more than two decades, would be right there with them as they followed their dreams for a vibrant, thriving New Vietnam.

Why choose Vietnam?

3. Economics

- Vietnam's economy has been gradually improving since the Doi Moi policy, beginning in 1986. According to a prediction by PricewaterhouseCoopers in February 2017, Vietnam's economy might be the world's fastest-growing, with a projected annual GDP growth rate of roughly 5.1 per cent, making it the world's 20th-largest by 2050. Vietnam has also been named in the CIVETS and Next Eleven lists.

4. Hospitality & People

The Vietnamese instinctive hospitality as a display of compassion, respect, and love for their friends and visitors is a national characteristic. Visitors become aware of this the moment they step off the plane or train! Travelers from around the world to Vietnam have been gushing over the warmth, kindness and helpfulness of the Vietnamese people without end, especially on social media. It is fair to say that we have had our share of foreign invasions, wars, and misery. Despite this, we seek peace and, perhaps, reasonable wealth, as well as an aspiration to be a part of the global community and continue to grow our economy while developing our people. Last, but not least, Vietnamese possess the will to strive for success with amazing perseverance. A prime example is Mr Pham Nhat Vuong, a real estate developer with a net worth of USD 7.8 billions. He debuted as the 974th richest person in the world in the Forbes Billionaires' List. Mr Pham is regarded as one of Vietnam's most respected success-stories for his grit and determination. The luxurious Vincom Center in Saigon, Vinpearl Hotel, Vincom Village, and the Vincom Center Ba Trieu in Hanoi were among his recent real estate projects. Mr Pham then merged Vincom and Vinpearl to become Vingroup, which is now one of Vietnam's most valuable corporations on the stock exchange. In 2007, he gave USD18.5 million to his country to create a vocational high school and kindergarten. Vietnam is proud of its history, its people and we are looking ahead into the future to establish a nation of rugged, unified people that work for peace, prosperity and happiness for all.

Vietnam is ready for the world and ready to host the Vietnam WSDC 2023!

COVID-19 MANAGEMENT PLANS

COVID-19 in Vietnam

Current COVID-19 situation in Vietnam:

- The COVID-19 situation in Vietnam is well-managed, especially in Hanoi, where the tournament will be taking place. Vietnam is also one of the fastest countries in the world to provide its citizens with vaccines.
- As of July 2022, 83.3% of the Vietnamese population has received 2 vaccine doses.
- Mask wearing is required, although not strictly enforced.
- For now, international flights and tourists are permitted in Vietnam, and no quarantine is necessary. We do not expect this to change any time soon and will keep the community updated should there be changes in these policies.

Organizing a COVID 19-Safe WSDC

- We will adopt Vietnam's national posture on COVID-19 and will accordingly expect participants to adhere to our national guidelines. Updated guidelines will be posted before the WSDC.
- We will require all participants to conduct a COVID-19 self-test on Day 1 (Arrival Day) to ensure that everyone is healthy. The COVID-19 self-test will be provided for by the Organizing Committee.
- We will not require participants to self-test at the start of each day, but we ask all participants to exercise social responsibility in their engagement with the tournament e.g. if you are not feeling well/showing symptoms, please self-isolate and self-test.
- For participants at the debate venues, hand sanitizers and masks will also be supplied; all debate rooms and all other venues will be sanitized daily. Additional COVID-19 safety measures will be implemented when deemed necessary by the Vietnamese Government.
- A COVID 19 Safety Officer will be appointed to take the lead on COVID 19 management. There will be a guide on how to report COVID 19-positive tests closer to the start of the WSDC.

Contingency Plan 1:
A Few Teams/Judges are COVID 19 Positive

- COVID-Isolation Policy:
  - Teams and judges will isolate in their accommodation until they test COVID 19-negative. We expect this will take between 2 to 7 days, depending on the severity of symptoms and number of vaccination doses taken by the affected participants.
  - Tournament staff will deliver food to these affected teams, along with water, and COVID 19-tests, as necessary.
  - If necessary, we will escalate to medical attention and hospitalisation.

- Tournament Changes:
  - We will ask teams/judges to self-assess if they are able to debate. If they are **NOT** able to debate we will proceed either with declaring a walkover (in the case where the draw cannot be changed e.g. a prepared preliminary round), or inserting a swing team into the debate. If they are not able to judge, the CAP will not allocate them.
  - If the team/judge is able to debate/judge, we will ask for them to participate via Zoom. The team/judge will then be an 'online' team/judge for the duration of their COVID 19-positive days. Further instructions will be given in a Technical Guide closer to the start of the WSDC.

Contingency Plan 2:

When More Than Half of the Participants are COVID 19 Positive

- COVID 19 Isolation Policy (NO CHANGE):
  - Teams and judges will isolate in their accommodation until they test COVID 19-negative. We expect this will take between 2 to 7 days, depending on the severity of symptoms and number of vaccination doses of the affected participants.
  - Tournament staff will deliver food to these teams, along with water, and COVID-tests, as necessary.
  - If necessary, we will escalate to medical attention and hospitalisation.

- Tournament Changes:
  - Depending on the severity of symptoms, and spread of the coronavirus, we may make the decision to shift the tournament *online* to protect the safety of our participants. Accordingly, in that circumstance, all debates will be conducted over Zoom and Discord (not dissimilar to the Macau Online WSDC 2021 and the Netherlands Online WSDC 2022). Further information will be provided in a Technical Guide closer to the start of the WSDC.
  - This will be a Last Resort and an ultimate fail-safe. We will endeavour **NOT** to use this option at all.

What Do Our COVID 19-Contingency Plans Mean for Participants

- We will be using a Discord server to communicate announcements with the participants.

- We will require all participants to bring a device from which they would be able to debate from over Zoom to Hanoi, e.g. a laptop, an iPad, or other appropriate tablet devices.

- These devices, and their chargers, should be brought with them to the tournament venue at the start of each day, and should only be used when debates have to be shifted online for COVID-related reasons.**

**We understand that some in-person tournaments (e.g. Zagreb EUDC 2022) have allowed debaters to use their laptops during preparation time and the debate, e.g. by typing notes on Word/Google Doc, for accessibility and equity reasons. We believe this is a matter for the WSDC community to decide and we will defer to the guidance of the WSDC Board and the Tournament Committee.
